## SKINCARE

Eminence Organic Skin Care products are handmade, using only the freshest ingredients known to nature, developed without harming animals or using any harsh chemicals.

Fresh fruit pulp, seeds and herbs, including rosehip, linden, calendula, and sour cherry (just to name a few!) are hand-picked and hand mixed in small batches, and combined with thermal hot spring water to create products that not only retain their natural potencies to heal and smooth the skin, but also look, feel and smell wonderful.

Each facial is individually customized for the client's skin. Whether treating rosacea, acne, aging, pigmentation, or dehydration, there is a treatment to address every skincare need.

### Facial

Enjoy a delightful combination of organic ingredients specially designed to hydrate and refine your skin while infusing it with fresh-squeezed nutrients and antioxidants. Each treatment is customized based on skin type. Treatment includes a skin analysis, cleanse, exfoliation, extractions, high frequency treatment, multiple masks, massage, and nourishment.

One hour and fifteen minutes    \$115 (tip included in price)

### Peel (20% lactic and glycolic acids)

A highly active mixture of glycolic acids, lactic acids and enzymes used to decongest pores, stimulate collagen production, and refine and even skin tone. Exfoliates skin without irritation. Infuses the skin with active vitamins and bioflavonoids. Deeply hydrates and plumps the skin. Wrinkle depth is reduced and fine lines faded. Stimulates collagen production. Refines and evens skin tone and assists with hyperpigmentation. Antioxidant and age-defying benefits.

Added to facial                      \$30 (tip included in price)  
Peel Only                                \$60 (tip included in price)

### Microdermabrasion

Added to facial                      \$30 (tip included in price)  
30-minute treatment                \$60 (tip included in price)  
Package of 6                            \$300 (tip included in price)

## HAIR REMOVAL

### Sugaring/Waxing (tip included in prices)

The sugaring technique for hair removal uses a paste made from 100% natural ingredients. Different from wax, there is no risk of burning the skin or having an allergic reaction.
